

Verification INTERNATIONAL ISO14001:2004(Environmental) 1 Day Awareness

This one-day course is designed to provide delegates with a thorough knowledge of the ISO14001:2004 environmental management system standard and its implementation requirements.

Introduction

Environmental performance is a key business performance indicator. It is now not enough to simply comply with the plethora of legislation but also to demonstrate effective and proactive management of the environment for improvement. It is particularly useful for those who are keen to progress beyond legal compliance and improve the way their system operates. Many companies are now turning to ISO14001:2004 as their method of choice and as a means of demonstrating the system's credibility to their existing and potential customers and to other interested parties. This course introduces delegates to the ISO14001:2004 management system model and describes how this standard can be used to implement a certifiable system.

Who Should Attend?

This course is invaluable for those who are environmental practitioners currently managing a environmental policy and seeking to improve its performance. It is also invaluable for those who have a general need to know more about ISO14001:2004 and for those who are considering implementing an ISO14001:2004 based system.

Course Objectives

To enable delegates to understand environmental management within a business and to understand the principles of the ISO14001:2004 environmental management system.

Course Content

- Environment Management System implementation
- Environmental policy
- Background to Environmental management
- Performance standards
- ISO14001:2004 requirements

What Are The Benefits?

Attendees will develop a detailed understanding of the ISO14001:2004 requirements allowing them to make a judgement on whether this system is the best way forward. If you have already decided that ISO14001:2004 will be of benefit to your company then the course may help you to identify the requirements and pitfalls before you start, avoiding costly mistakes.

In-House Courses

Offering better value for money, they can be designed to closely match your specific requirements.

Style of Delivery

The course involves a balanced combination of presentation and exercises to achieve the course objectives. Course leaders are trained in the field of environmental management systems –

Certification

Delegates successfully completing the course will be awarded a certificate.
